Suresh K

Entry-Level Python Developer & Web Designer | BCA Graduate |
Django Intern at Shiash Info Solutions | Pursuing Advanced Full-
Stack Training at Besant Technologies
Chennai, Tamil Nadu, India

Summary

As a passionate and driven fresher, I specialize in web development
with expertise in HTML, CSS, Python, Django, Flask, MySQL, and
SQLite3. I enjoy building impactful applications, such as Translator
Pro and Aluminium Pro, which showcase my ability to create
functional and user-friendly solutions.

With proficiency in tools like GitHub, VS Code, PyCharm, Netlify, and
Render, I have developed a strong workflow that ensures efficiency
and precision in my work. My enthusiasm for technology drives me to
continuously learn and apply new skills to real-world projects.

As a passionate web developer, I have built my personal portfolio
using HTML, CSS, and media queries, ensuring a responsive and
visually appealing design across all devices. This portfolio serves as
a showcase of my skills, projects, and achievements, reflecting my
dedication to delivering high-quality web solutions.

You can explore my portfolio here: [https://vipsuresh.netlify.app/]

Through this project, I have demonstrated my proficiency in front-
end development and my ability to design clean and user-friendly
interfaces. It also highlights my commitment to continuous learning
and improving my craft as a developer.

Currently, I am exploring advanced concepts in Django, such as
creating robust models and implementing efficient batch scheduling
systems, to further enhance my development skills. I am eager to
collaborate on innovative projects, contribute to meaningful solutions,
and grow as a developer in the ever-evolving tech industry.

Experience

Shiash Info Solutions Private Limited

4 months

Python Developer
